

FREIGHT FORWARDING

# WAREHOUSING

Choose Livingston when only the best-in-class inventory management and order fulfillment will do.

## Freight Forwarding

# Warehousing

When it comes to warehousing and distribution services, do you prefer Economy class, Business class...or Best-in-class?

When you do business around the globe, distribution and warehousing are a vital part of your supply chain. Why risk going with anything less than best-in-class inventory management and order fulfillment?

Livingston's Third Party Logistics (3PL) distribution capabilities give you nothing less than seamless global logistics solutions and complete supply chain management.

Wherever you need distribution, go with Livingston and you're working with a global network staffed by professional, local managers with the background, expertise and programs to handle all of your most highly specialized and complex needs – from order fulfillment and cross dock services, to container de-stuffing, reverse logistics...and much more.

### All the storage (solutions) you need

Your transportation strategy doesn't end with moving your shipment from A to B. That's why you rely on Livingston for the full range of storage, handling and warehousing solutions. We offer both short- and long-term storage in racked and stacked positions, in state-of-the-art facilities protected 24/7 against fire and theft.

### Take your supply chain management to the next level.

Choose Livingston for warehousing and distribution to save time and money, and boost the flexibility and responsiveness of your business.

**We have the capacity, technology, resources and expertise to fulfill all your warehousing, distribution and transportation needs, including:**

- Buyers consolidation
- Inventory management
- Vendor management
- Compliance inspections
- Bonded warehousing
- Inventory visibility

### Fulfillment – we're your number one pick

No matter what size your business, choose Livingston for flexible warehousing and customized order fulfillment services. As well as speed and accuracy that is second to none, we offer:

#### Full-service order fulfillment

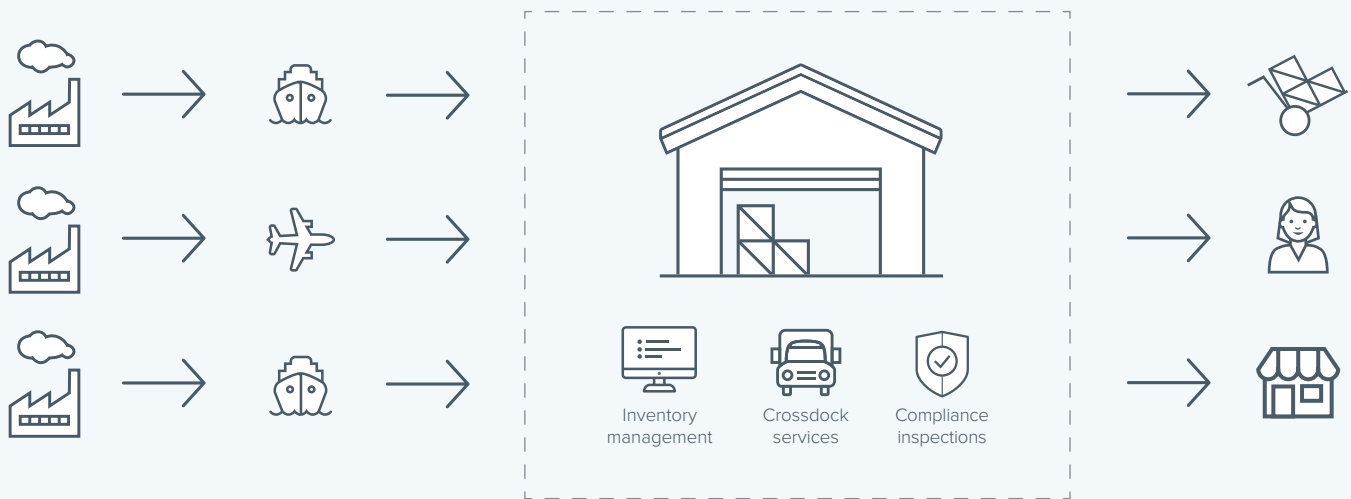

Once an order is placed, it is immediately routed to our distribution center, where it is pulled, packed, labeled and shipped.

#### Pick and pack services

Whatever your order-pulling needs, you can count on our extensive experience handling pick and pack requirements for a number of different product lines and various ship-out methods, large or small.

## WAREHOUSING

Distribution and warehousing are a vital part of your supply chain. Benefit from Livingston's seamless global logistics capabilities and complete supply chain management. Our 3PL distribution capabilities offer best-in-class inventory management and order fulfillment.

### Case-picking

By the master carton, by inner packaging, or by piece, we do it all. Looking for savings? We can pack inner and piece merchandise into master packs to cut your costs.

### Standard (24-hour), rush and emergency handling

From order-receipt, to picking, packing, and shipping, Livingston's got you covered with rapid turnaround for products that must be broken down, sorted, and reassembled for furtherance to multiple locations.

### Cross dock services – Right load, right size, right place...right away!

Cross docking – moving material directly from the receiving dock to the shipping dock – offers substantial cost savings, keeps a lid on inventories, and helps keep customers happy. It can also shorten the order cycle, making your distribution network more flexible and responsive. At Livingston, we find it's ideal for shipments that need to be divided up and segregated before being sent to multiple destinations. Or, when multiple small loads are to be received and consolidated into a single combined shipment.

### Cross docking provides:

- Inventory optimization
- Change order flexibility
- Reliable on-time delivery

### Consider cross docking when:

- Purchasing or receiving a single large shipment is inefficient.
- You need to avoid excess inventory.
- Material, date and/or quantity changes are required immediately.
- Reliable on-time delivery is mandatory.

### Container stuffing and destuffing

Trust Livingston for your container packing and unpacking needs, including:

- Offloading both palletized and floor-loaded units
- Sealing/unsealing containers and recording the seal numbers as required
- Furnishing a load plan of cargo packed
- Unpacking and separating cargo
- Checking the shipments unpacked for count and package condition
- Providing a verified outturn report after completion of destuffing

## Reverse logistics – Livingston saves the day

Recalls, commercial returns, wrong deliveries, warranties, repairs and refurbishment, and end-of-life returns...all or any of these can hurt your profit margins, environmental image, and reputation for corporate social responsibility.

### Livingston has your back with reverse logistics management services that include:

- Handling of recalls for seasonal or defective products.
- Reworking or refurbishing products at our location for secondary sales opportunities or providing alternative disposal solutions.

Depending on your needs and the nature of the material, we can return your goods to inventory, arrange for them to be donated, or work with you to establish additional subcategories for disposal by waste stream.

## More reasons to go with Livingston:

### Seasonal Distribution

If you only do business at certain times of the year, with very little inventory the rest of the time, consider Seasonal Distribution. Why pay to lease a facility year-round, when Livingston offers warehousing solutions that lower costs and ensure your products get the attention they deserve when it matters?

### Take advantage of Livingston's warehousing solutions, and take your supply chain management to the next level:

- Reduce inventory, transportation, and other costs.
- Improve customer service.
- Integrate your entire supply chain.
- Increase efficiency, stability and flexibility.
- Avoid extensive capital expenditures.
- Reduce risk, uncertainty and fluctuation.

## Inventory Management

Our commitment to accurate reporting plays a key role in providing you with accessible and reliable inventory information. Our online warehouse management system lets you view current inventory levels and shipping and receiving records. And our sporadic cycle counts and stock checks mean you can be certain the physical inventory levels in our facilities match those in your reports.

## Labeling, kitting and assembly

When your products need to be labeled or assembled before shipping, call on Livingston for a cost-effective solution. We offer the full range of packaging and labeling services, including:

- Differentiated packaging for domestic or international markets
- Repackaging
- Over-wrapping
- Shrink wrapping
- Labeling
- Price stickering
- Point-of-sale displays
- Pre-packaged kit assembly
